

As a resident of my local community, KLOVE and its sister station, AIR1, keep me connected with current events world wide. They provide me with a positive, encouraging start to my day and inspire me to impact my community in any lasting and beneficial way I can. If KLOVE and/or AIR1 were to be displaced by an LPFM broadcaster providing other programming, the effect on my local community would be devastating. It is hard enough to maintain an upbeat attitude in the face of the tragic current events facing us on the news. Without KLOVE's support and encouragement, many people would be left without hope. All people need hope, we need faith, and we need KLOVE. This station, and others like it, serve the public interest by serving my interest and my neighbors' interests and by boldly lighting a beacon in a dark time. Please consider this petition before allowing these LPFM's to push KLOVE off the air.
